

## 2014 Annual Report

### Agape Villages Foster Family Agency

*Providing homes for forgotten hearts since 1958*

**Children are our future. They are also our today.**

We cannot afford to lose a single one of these minds...their thoughts, their ideas, their creativity.

**There are more than 60,000 children in California** growing up in the foster care system. It does not matter whether these children are actually orphans...or whether they have absentee parents...or if they have parents who are simply not capable of caring for them.

**These are the children of today.  
These are the adults of tomorrow.**

- **The mission of Agape Villages Foster Family Agency** is to mobilize community resources to provide quality homes, innovative solutions, and the highest quality of professional services to disadvantaged children and their families to meet their needs, maximize their potential, and lead them toward better and brighter futures.
- **Our primary service areas** are in the San Francisco Bay area, Central Valley, and Greater Sacramento area of the State of California.
- **More than 5,900** of California's foster youth have been served by Agape Villages.
